RG104 E-1 Box 124 June-Sept 1881

U. S. Coast and Geodetic Survey Office,

Washington, Aug. 25th, 1881.

My dear Colonel Snowden;

Allow me to suggest that it would be useful to figure the graduation of the left hand index plate of the test beam in the Mint - as shown:

in order to subserve a uniform method of weighing.

Yours truly

J. E. Hilgard

Inspector U. S. Standards.

Col. A. London Snowden;
Superintendent U. S. Mint,
Philadelphia, Pa.

[Abstract:] It would be useful to figure the gradations of the left hand index plate of the test beam. 823

U.S. Coast and Geodetic Survey Office,
Washington,
August 25, 1881

My dear Colonel Snowden;

Allow me to suggest that it would be useful to figure the gradations of the left hand index plate of the test beam in the Mint – as shown:

[Please see original images for sketch.]

In order to subserve [sic] a uniform method of weighing.

Yours truly,
J.E. Hilgard
Inspector U.S. Standards.

Col. A. Loudon Snowden;
Superintendent U.S. Mint,
Philadelphia, Pa.
